

TOURNAMENT RULES

Revised March 2014

Players Casino uses the Poker Tournament Directors Association rules in addition to house rules during tournament play.

The Poker TDA is a voluntary poker industry association founded in 2001. Its mission is to increase global uniformity of poker tournament rules. Poker TDA rules supplement the rules of this house. In case of conflict with a gaming agency, the agency rules will apply.

General Concepts

1: Floor Decisions

Floor staff must consider the best interest of the game and fairness as top priorities in the decision-making process. Unusual circumstances can on occasion dictate that decisions in the interest of fairness take priority over the technical rules. The floorperson's decision is final.

2: Player Responsibilities

Players are expected to verify registration data and seat assignments, protect their hands, make their intentions clear, follow the action, act in turn, defend their right to act, keep cards visible, keep chips correctly stacked, remain at the table with a live hand, speak up if they see a mistake being made, transfer tables promptly, follow one player to a hand, know and comply with the rules, follow proper etiquette, and generally contribute to an orderly tournament.

3: Official Terminology of Tournament Poker

Official betting terms are simple, unmistakable, time-honored declarations like: bet, raise, call, fold, check, all-in, pot (in pot-limit only), and complete. Regional terms may also meet this standard. The use of non-standard language is at player's risk because it may result in a ruling other than what the player intended. It is the responsibility of players to make their intentions clear. See also Rules 40 & 49.

4: Electronic Devices and Communication

Players may not talk on a phone while at the poker table. House rules apply to other forms of electronic devices and electronic communication.

5: Official Language

The English-only rule will be enforced in the United States during the play of hands. At non-U.S. venues, the house will clearly post and announce acceptable language(s).

Seating Players; Breaking & Balancing Tables

6: Random Correct Seating

Tournament and satellite seats will be randomly assigned. A player who started the tournament in the wrong seat with the correct chip stack amount will be moved to the correct seat and will take his current total chip stack with him.

7: Seating of Alternates, Late Registrations, and Re-Entries

Alternates, players registering late, and re-entries will be sold full stacks.

8: Special Needs

Accommodations for players with special needs will be made when possible.

9: Breaking Tables

Players going from a broken table to fill in seats assume the responsibilities of the position. They can get any seat including the big or small blind or button. The only place they cannot be dealt a hand is between the small blind and the button.

10: Balancing Tables

A: To balance tables in flop and mixed games, the player who will be big blind next is moved to the worst position, including taking a single big blind when available, even if that means the seat will have the big blind twice. Worst position is never the small blind. In stud-only events, players are moved by position (the last seat to open at the short table is the seat filled).

B: In mixed games (ex: HORSE), when the game shifts from hold'em to stud, after the last hold'em hand the button is moved exactly to the position it would be if the next hand was hold'em and then is frozen there during the stud round. The player moved during stud is the player who would be the big blind if the game was hold'em for that hand. When hold'em resumes the button for the first hand will be at the position where it was frozen.

C: The table from which a player is moved will be specified by a predetermined procedure.

D: In full-table events, play will halt on a table 3 or more players short of the table with the most players. Play will halt on other game formats (ex: 6-handed and turbos) at TDs discretion. Not halting play is not a cause for a misdeal and TDs may elect not to halt play at their discretion. As the event progresses, when manageable & appropriate for the type of game, at TD's discretion tables will be more tightly balanced.

11: Number of Players at Final Table

Final tables will have the number of players at a full table for the event, plus one more player. (ex: 9-handed events seat 10 at the final table, 8-handed stud seats 9, 6-handed seats 7, etc.). No final table should seat more than 10. This rule does not apply to heads-up events.

Pots / Showdown

12: Declarations. Cards Speak at Showdown

Cards speak to determine the winner. Verbal declarations of hand value are not binding at showdown. However, deliberately miscalling a hand may be penalized. Any player, in the hand or not, should speak up if he thinks a mistake is being made in the reading of hands.

13: Tabling Cards & Killing Winning Hand

A: At showdown, a player should put **all cards** on the table so the dealer and players can read the hand clearly. "All cards" means both hole cards in holdem, all 4 hole cards in Omaha, all 7 cards in 7-stud, etc. Dealers cannot kill a hand that was tabled and obviously the winning hand.

B: If a player does not fully table his cards, then mucks thinking he has won, he does so at his own risk. If the cards are not 100% identifiable and the TD rules that the hand could not clearly be read, the player has no claim to the pot. The TDs decision on whether a hand was sufficiently tabled is final.

14: Live Cards at Showdown

A: If the house does not have a mucking line or forward motion rule at showdown, pushing non-tabled cards forward face down does not automatically kill them; a player may change his mind and table his cards if they remain 100% identifiable. However, the cards are at risk of being killed by the dealer when he pushes them into the muckpile.

B: If a mucking line or forward motion rule is in effect at showdown, house standards apply.

15: Face Up for All-Ins

All cards will be tabled without delay once a player is all-in and all betting action by all other players in the hand is complete. See Illustration Addendum.

16: Showdown Order

In a non all-in showdown, if cards are not spontaneously tabled, the TD may enforce an order of show. The last aggressive player on the final betting round (final street) must table first. If there was no bet on the final street, then the player who would be first to act in a betting round must table first (i.e. first seat left of the button in flop games, high hand showing in stud, low hand showing in razz, etc.). Except where house policy requires a hand to be tabled during the order of show, a player may elect to muck his hand face down.

17: Playing the Board at Showdown

When playing the board a player must table **all** hole cards in order to get part of the pot.

18: Asking to See a Hand

Players not still in possession of their cards at showdown, or who have mucked face down without tabling their cards, lose any rights or privileges they may have to ask to see any hand.

19: Awarding Odd Chips

Odd chips will be broken into the smallest denominations possible. In board games with 2 or more high or low hands, the odd chip goes to the first seat left of the button. In high stud, razz, and if there are 2 or more high or low hands in stud/8; the odd chip goes to the high card by suit in the best 5-card hand. In H/L split, the odd chip in the total pot goes to the high side. If

identical hands win both high and low (ex: 2 wheels in Omaha/8) the pot will be split as evenly as possible. See Illustration Addendum.

20: Side Pots

Each side pot will be split separately.

21: Disputed Pots

The right to dispute a hand ends when a new hand begins. See Rule 22.

General Procedures

22: New Hand & New Limits

When time has elapsed in a round and a new level is announced, the new level applies to the next hand. A hand begins with the first riffle. If an automatic shuffler is used, the hand begins when the green button is pushed.

23: Chip Race, Scheduled Color Ups

A: At scheduled color-ups, chips will be raced off, starting in seat 1, with a maximum of one chip awarded to a player. Players cannot be raced out of an event: a player losing his remaining chip(s) in a race will get 1 chip of the lowest denomination still in play.

B: Players must have their chips fully visible and are encouraged to witness the chip race.

C: If after the race, a player still has chips of a removed denomination, they will be exchanged for current denominations only at equal value. Chips of removed denominations that do not fully total at least the smallest denomination still in play will be removed without compensation.

24: Cards & Chips Kept Visible, Countable, & Manageable. Discretionary Color-Ups

A: Players are entitled to a reasonable estimation of an opponent's chip count; thus chips should be kept in countable stacks. The TDA recommends clean stacks in multiples of 20 as a standard. Players must keep higher denomination chips visible and identifiable at all times.

B: TDs will control the number & denomination of chips in play and may color up at their discretion. Discretionary color ups are to be announced.

C: Players with live hands must keep their cards in plain view at all times.

25: Deck Changes

Deck changes will be on the dealer push or level changes or as prescribed by the house. Players may not ask for deck changes.

26: Re-buys

A player may not miss a hand. If a player announces the intent to rebuy before a new hand, he is playing chips behind and is obligated to make the re-buy.

27: Calling for a Clock

Once a reasonable amount of time passes and a clock is called for, a player will be given up to 50 seconds to make a decision. If action is not taken before time expires, there will be a 10-

second countdown. If the player has not acted by the end of the countdown, the hand is dead. A tie goes to the player. At TDs discretion, the time allowed under this rule may be reduced.

28: Rabbit Hunting

No rabbit hunting is allowed. Rabbit hunting is revealing any cards “that would have come” if the hand had not ended.

Player Present / Eligible for Hand

29: At Your Seat

A player must be at his seat when the second card is dealt to the button on the initial deal or he will have a dead hand. A player not then at his seat is dealt in, he may not look at his cards, and the hand is immediately killed after the initial deal. His blinds and antes are posted and if dealt the bring-in card in a stud-type game he will post the bring-in*. A player must be at his seat to call time. “At your seat” means within reach of your chair. This rule is not intended to condone players being out of their seats while involved in a hand. [*Note: In stud, house rules may require additional card(s) be dealt to the killed hand in certain situations.]

30: At the Table with Action Pending

A player with a live hand must remain at the table if any further betting action remains in the hand. Leaving the table is incompatible with a player’s duty to protect his hand and follow the action, and is subject to penalty.

Button / Blinds

31: Dead Button

Tournament play will use a dead button.

32: Dodging Blinds

Players who intentionally dodge any blind when moving from a broken table will incur a penalty.

33: Button in Heads-up

In heads-up play, the small blind is on the button and acts first pre-flop and last on all other betting rounds. The last card is dealt to the button. When beginning heads-up play, the button may need to be adjusted to ensure no player has the big blind twice in a row.

Dealing Rules

34: Misdeals

A: Misdeals include but are not necessarily limited to: 1) 2 or more boxed cards on the initial deal; 2) first card dealt to the wrong seat; 3) cards dealt to a seat not entitled to a hand; 4) a seat entitled to a hand is dealt out; 5) In stud, if any of the players’ 2 down cards are exposed by dealer error; 6) In flop games, if either of the first 2 cards dealt off the deck or any other 2 downcards are exposed by dealer error. Players may be dealt 2 consecutive cards on the button. House standards apply for draw games (ex: lowball).

B: If a misdeal is declared, the re-deal is an exact re-play: the button does not move, no new players are seated, and limits stay the same. Cards are dealt to players on penalty or who were not at their seats for the original deal, and their hands are killed after the re-deal. The original deal and re-deal count as one hand for a player on penalty, not two.

C: If substantial action occurs, a misdeal cannot be declared and the hand must proceed.

35: Substantial Action

Substantial Action is either: A) any two actions in turn, at least one of which puts chips in the pot (i.e. any 2 actions except 2 checks or 2 folds); OR B) any combination of three actions in turn (check, bet, raise, call, or fold). See also Rules 34 and 38.

36: Four-Card Flop

If the flop contains 4 (rather than 3) cards, whether exposed or not, the dealer shall scramble the 4 cards face down. A floorperson will be called to randomly select one card to be used as the next burn card and the remaining 3 cards will become the flop.

Play: Bets & Raises

37: Verbal Bet Declarations / Acting in Turn / Undercalls

A: Players must act in turn. Verbal betting declarations in turn are binding. Chips put in the pot in turn stay in the pot. An undercall (betting less than the current call amount) is a mandatory full call if made facing an opening bet multi-way on any betting round, or facing any bet heads up. In all other situations, TD's discretion applies. For purposes of this rule, in blind games the posted BB is the opening bet on the first round.

B: Players should wait for clear bet amounts before acting. Ex: A says "raise" (but states no amount), and B and C quickly fold. B and C should wait to act until A's exact raise amount is clear. All-in buttons can greatly reduce undercall frequency (See Recommended Procedure 1).

38: Action Out of Turn (OOT)

A: Action out of turn is subject to penalty and is binding if the action to the OOT player has not changed. A check, call or fold does not change action. If action changes, the OOT bet is not binding and is returned to the OOT player who has all options including: calling, raising, or folding. An OOT fold is binding.

B: A player skipped by OOT action must defend his right to act. If there is reasonable time and the skipped player has not spoken up by the time substantial action (Rule 35) OOT occurs to his left, the OOT action is binding. The floor will be called to render a decision on how to treat the skipped hand. See Illustration Addendum.

39: Methods of Calling

Standard and acceptable forms of calling include: A) verbally declaring "call"; B) pushing out chips equal to a call; C) silently pushing out an overchip; or D) silently pushing out multiple chips equal to a call under the multiple-chip betting rule (Rule 43). Silently betting chip(s) relatively tiny to the bet (ex: NLHE, blinds 2k-4k. A bets 50k, B then silently puts out a single 1k

chip) is non-standard, strongly discouraged, subject to penalty, and will be interpreted at TDs discretion, including being ruled a full call.

40: Methods of Raising

In no-limit or pot-limit, a raise must be made by (A) placing the full amount in the pot in one motion; or (B) verbally declaring the full amount prior to the initial placement of chips into the pot; or (C) verbally declaring “raise” prior to pushing out the **exact** amount to call into the pot and then completing the action with one additional motion. Under option C, if other than the **exact** amount to call, but less than a minimum raise is first put out, it will be ruled a minimum raise. It is the player's responsibility to make his intentions clear.

41: Raises

A: A raise must be at least the size of the largest previous bet or raise of the current betting round. If a player raises 50% or more of the previous bet but less than the minimum raise, he must make a full raise. The raise will be exactly the minimum raise allowed.

B: In no-limit and pot limit, an all-in wager of less than a full raise does not reopen the betting to a player who has already acted and is not facing at least a full raise when the action returns to him. In limit, at least 50% of a full raise is required to re-open betting for players who have already acted. See Illustration Addendum.

42: Oversized Chip Betting

Anytime when facing a bet or blind, placing a single oversized chip in the pot is a call if a raise isn't first verbally declared. To raise with an oversized chip, raise must be declared before the chip hits the table surface. If raise is declared (but no amount), the raise is the maximum allowable for that chip. When not facing a bet, placing an oversized chip in the pot without declaration is a bet of the maximum for the chip.

43: Multiple Chip Betting

When facing a bet, unless a raise is declared first, a multiple-chip bet is a call if there is not one chip that can be removed and still leave at least the call amount. Example: preflop, 200-400 blinds: A raises to 1200 total (an 800 raise), B puts out two 1000 chips without declaring raise. This is just a call because removing one 1000 chip leaves less than the amount to call (1200). If the single removal of **any one** chip leaves the call amount or more, the bet is governed by the 50% standard in Rule 41. See Illustration Addendum.

44: Previous Bet Chips Not Pulled In

If a player faces a raise and has chips in front of him not yet pulled in from a prior bet, those chips (and any change due) may affect whether his betting response to the raise is a call or re-raise. Because several possibilities exist, players are encouraged to verbally declare their bet before putting out new chips on top of chips from a prior bet not yet pulled in.

45: Number of Allowable Raises

There is no cap on the number of raises in no-limit and pot-limit. In limit events there is a limit to raises even when heads-up until the tournament is down to 2 players; the house limit applies.

46: Accepted Action

Poker is a game of alert, continuous observation. It is the caller's responsibility to determine the correct amount of an opponent's bet before calling, regardless of what is stated by the dealer or players. If a caller requests a count but receives incorrect information from the dealer or players, then places that amount in the pot, the caller is assumed to accept the full correct action & is subject to the correct wager or all-in amount. As with all tournament situations, Rule 1 may apply at TD's discretion.

47: Pot Size & Pot-Limit Bets

Players are entitled to be informed of the pot size in pot-limit only. Dealers will not count the pot in limit and no-limit. Declaring "I bet the pot" is not a valid bet in no-limit but it does bind the player to making a valid bet (at least a minimum bet), and may be subject to penalty. If the player is facing a bet he must make a valid raise.

48: String Bets and Raises

Dealers will be responsible for calling string bets and raises.

49: Non-Standard & Unclear Betting

Players use unofficial betting terms and gestures at their own risk. These may be interpreted to mean other than what the player intended. Also, whenever the size of a declared bet can reasonably have multiple meanings, it will be ruled as the lesser value. Ex: "I bet five". If it is unclear whether "five" means \$500 or \$5,000, the bet stands as \$500. See Rules 2, 3 & 40.

50: Non-Standard Folds

Anytime before the end of the last betting round of a hand, folding in turn when there's been no bet to you (ex: facing a check or first to act post-flop) or folding out of turn are both binding folds and may be subject to penalty.

51: Conditional Statements

Conditional statements regarding future action are non-standard and strongly discouraged; they may be binding and/or subject to penalty at TD's discretion. Example: "if – then" statements such as "If you bet, then I will raise".

52: Count of Opponent's Chip Stack

Players are entitled to a reasonable estimation of opponents' chip stacks (Rule 24). Players may only request a more precise count if facing an all-in bet. The all-in player is not required to count; if he opts not to, the dealer or floor will count it. Accepted action applies (See Rule 46).

53: Over-Betting Expecting Change

Betting action should not be used to obtain change. Example: The opening bet is 325 to A and he silently puts out 525 (one 500 and one 25), expecting 200 change. This is a raise to 650 under the multiple chip rule. Putting out more than the intended bet can confuse everyone at the table. All chips pushed out silently are at risk of being counted as part of the bet.

54: All-In with Chips Found Behind Later

If A bets all-in and a hidden chip is found behind after a player has called, the TD will determine if the chip behind is part of accepted action or not (Rule 46). If not part of the action, A will not be paid off for the chip(s) if he wins. If A loses he is not saved by the chip(s) and the TD may award the chip(s) to the winning caller.

Play: Other

55: Chips in Transit

Players may not hold or transport tournament chips in any manner that takes them out of view. A player who does so will forfeit the chips and may be disqualified. The forfeited chips will be taken out of play.

56: Accidentally Killed / Fouled Hands

Players must protect their own hands at all times. If a hand is fouled or a dealer kills a hand by mistake, the player has no redress and is not entitled to a refund of called bets. If the player initiated a bet or raise and hasn't been called, the uncalled bet or raise will be returned to him.

57: Dead Hands and Mucking in Stud

In stud poker, if a player picks up the upcards while facing action, the hand is dead. Proper mucking in stud is turning down all up cards and pushing them all forward face down.

Etiquette & Penalties

58: Penalties and Disqualification

A: A penalty **may** be invoked if a player exposes any card with action pending, throws a card off the table, violates the one-player-to-a-hand rule, or similar incidents occur. Penalties **will** be invoked for soft play, abuse, disruptive behavior, or cheating.

B: Penalty options include verbal warnings, "missed hands", "missed rounds", and disqualification. Missed round penalties are assessed as follows: the offender will miss one hand for every player (including the offender) at the table when the penalty is given multiplied by the number of penalty rounds. Staff can assess 1 or more missed-hand penalties; 1-, 2-, 3-, or 4-round penalties, or disqualification. Repeat infractions are subject to escalating penalties.

C: During a penalty, the offender must remain away from the table. Cards are dealt to his seat, his blinds and antes are posted, and the hand is killed after each initial deal. In stud-type games if he is dealt the bring-in card he must post the bring-in.

D: Chips of a disqualified player shall be removed from play.

59: No Disclosure

Players are obligated to protect other players in the tournament at all times. Therefore players, whether in the hand or not, may not:

1. Disclose contents of live or folded hands,
2. Advise or criticize play at any time,
3. Read a hand that hasn't been tabled.

The one-player-to-a-hand rule will be enforced. Among other things, this rule prohibits showing a hand to or discussing strategy with another player, spectator, or advisor.

60: Exposing Cards and Proper Folding

A player who exposes his cards with action pending may incur a penalty, but will not have a dead hand. The penalty will begin at the end of the hand. When folding, cards should be pushed forward low to the table, not deliberately exposed or tossed high (“helicoptered”). See also Rule 57.

61: Ethical Play

Poker is an individual game. Soft play will result in penalties, which may include chip forfeiture and/or disqualification. Chip dumping and other forms of collusion will result in disqualification.

62: Etiquette Violations

Repeat etiquette violations will result in penalties. Examples include but are not limited to: delay of game, unnecessarily touching other players’ cards or chips, repeatedly acting out of turn, betting out of reach of the dealer, abusive conduct, and excessive chatter.

POKER TOURNAMENT DIRECTORS ASSOCIATION

2013 Recommended Procedures Version 1.0, Released Aug. 9, 2013

TDA Recommended Procedures are policy suggestions to reduce errors and improve event management. They also may apply to situations with too many variations to address in one universal rule. The fairest ruling in these cases may require use of multiple rules, evaluation of all circumstances, and reliance on Rule 1 as a primary guide.

RP-1. All-In Buttons

It is advisable to use an all-in button to clearly indicate that a player’s bet is “all-in”. The buttons should be kept by the dealer (rather than each player). When a player bets all-in, the dealer will place the all-in button in front of the player, in full view of the rest of the table.

RP-2. Bringing in Bets is Discouraged

Routinely bringing in chips as betting and raising proceeds around the table is poor dealing practice. The reduction in bet stacks may influence the action, create confusion & increase the risk of error. The TDA recommends that dealers do not touch a player's bet unless a count is needed. Only the player currently facing action may ask the dealer to bring-in chips.

RP-3. Personal Belongings

The table surface is vital for chipstack management, dealing, and betting. The table and spaces around it (legroom & walkways) should not be cluttered by non-essential personal items. Each cardroom should clearly display its policy on items that may or may not be allowed in the tournament area.

RP-4. Disordered Stub

When cards remain to be dealt on a hand and the stub is accidentally dropped and appears it may be disordered: 1) it is first preferable to try to reconstruct the original order of the stub if possible; 2) If not possible, try to create a new stub using only the stub cards (not the muck & prior burn cards). These should be scrambled, shuffled, cut, & play then proceeds with the new stub; 3) If when the stub is dropped it becomes mixed in with the muck & burncards, then scramble the stub, muck & burncards together, shuffle, and cut. Play then proceeds with the new stub.

RP-5. Premature Board Cards

Board and burn cards are occasionally dealt prematurely by mistake, before the action on the preceding round is finished. A wide number of possibilities can occur, affecting the flop, turn, or river and their respective burns. When dealing the new board card(s) it is preferable to include the non-revealed original board & burn cards that remain in the stub as part of the new board & burns, if possible.

RP-6. Efficient Movement of Players

Moving players for breaking and balancing should be expeditious so as not to unduly miss blinds or otherwise delay the game. If possible, players should have racks for chip transport and sufficient color-ups should be conducted so players do not carry unnecessarily large quantities of chips (see Rule 24).

RP-7. Timing of Dealer Pushes

The TDA recommends that when manageable, dealer pushes not occur just prior to a scheduled break or a level change.

POKER TOURNAMENT DIRECTORS ASSOCIATION

Illustration Addendum to 2013 TDA Rules and Procedures Version 1.0

Rule 15: Face Up for All-Ins. *“All cards will be tabled without delay once a player is all-in and all betting action by all other players in the hand is complete”.* This rule means that all downcards of all players will be turned up at once when at least one player is all-in and there is no chance of further betting action by the other player(s). Do not wait for the showdown to turn the cards up; do not wait for sidepots to be divided before turning up the all-in who is only in for the main pot; if betting action is finalized on any street prior to the showdown, turn the cards up at that point and then run out the remaining cards.

Example 1. NLHE. Two players remain. On the turn, Player A (the shorter stack) pushes all-in and is called by B. Turn both A and B's downcards up at this point, then burn and turn the river and proceed to showdown.

Example 2. NLHE. Three players remain.

Pre-flop, Player A (the shortest stack) pushes all-in and is called by both B and C. Do not turn cards up yet because B and C both have chips so further betting action is possible.

On the flop B and C check; betting is still possible so don't turn the cards up yet.

On the turn B pushes all-in and C calls. Turn all hands up now (A, B, and C) because no further betting is possible. Burn and turn the river then proceed to showdown. Award the sidepot between B and C first, then award the main pot. Notice: you do not keep A's cards face down until the sidepot between B and C is awarded.

Example 3. NLHE. Three players remain.

Pre-flop, Player A (the shortest stack) pushes all-in for 700 and is called by both B and C who have several thousand each left. Do not turn cards up yet because B and C both have chips so further betting action is possible.

On the flop B and C check; betting is still possible so don't turn the cards up yet.

On the turn B bets 1000 and C calls. Since both B and C still have chips and the river remains to be dealt, betting is still possible so don't turn the cards up yet.

On the river both B and C check. Turn all hands up now (A, B, and C) because betting is over and the hand is moving to showdown. Award the 2000 sidepot between B and C first, then award the main pot. Notice: do not keep A's cards face down until the sidepot between B and C is awarded.

Rule 19: Awarding Odd Chip(s). F: When hands have identical value (ex: a wheel in Omaha/8) the pot will be split as evenly as possible.

Example 1: Omaha High/Low split. Two players win both high and low with 2-3-4-5-6 rainbow. A has 2-3-4-5-6s. B has 2-3-4-5-6c. The pot contains 66 chips total after being broken to smallest denominations. Right way to split: **as evenly as possible**; 33 to A and 33 to B. Wrong way to split: Divide entire pot 33 high, 33 low. Then give A the odd chip from the high pot for the high card by suit (6s), and give A the odd chip from the low pot for high card by suit (6s). A ends up with 34 chips while B gets 32.

Example 2: 7-Card Stud High/Low split. Two players win both high and low with 2-3-4-5-6. A has 2-3-4-5-6s. B has 2-3-4-5-6c. A has high card by suit (6s). The pot contains 66 chips total after being broken to smallest denominations. Right way to split: **as evenly as possible**; 33 to A with high card by suit, and 33 to B. Wrong way to split: See Example 1

Rule 38: Substantial Action Out of Turn (OOT). A player skipped by OOT action must defend his right to act. If there is reasonable time and the skipped player has not spoken up by the time substantial action (see Rule 35) OOT occurs to his left, the OOT action is binding. The floor will be called to render a decision on how to treat the skipped hand.

Example 1: NLHE, blinds 100-200. UTG (Seat 3) makes it 600. Seat 4 is skipped when Seat 5 calls 600 OOT. Seat 6 thinks for a moment then folds. There are now two players acting with chips involved to the left of Seat 4. Two players with chips qualifies as substantial action (Rule 35). Also, Seat 4 has had reasonable time to speak up and bring it to the dealer's attention that he has been skipped. The OOT call by Seat 5 is now binding due to substantial action OOT, and the OOT fold by Seat 6 is binding (Rule 50). The floor is called to make a decision on the fate of Seat 4's hand.

Example 2: NLHE, blinds 100-200. Three players remain to see the turn. After the dealer tables the turn card, the UTG (Seat 3) opens betting for 600. Seat 4 is skipped when Seat 5 calls 600 OOT. The dealer raps the table then burns and tables the river card. The floor is called to make a decision on the fate of Seat 4's hand.

Rule 41: The largest previous bet or raise of the current betting round.

This line refers to the largest additional action or "last legal increment" by a preceding bettor in the current round. The current round is the "current street", i.e. pre-flop, flop, turn, river in board games; 3rd – 4th – 5th – 6th – 7th street in 7-stud, etc.

Example 1: NLHE, Blinds 100-200. Post-flop, A opens with a bet of 600. B raises 1000 for total of 1600. C re-raises 2000 for total of 3600. If D wants to raise, he must at least raise the "largest bet or raise of the current round", which is C's raise of 2000. So D must re-raise at least 2000 more for a total of 5600. Note that D's minimum is not 3600 (C's total bet), but only 2000, the additional raise action that C added.

Example 2: NLHE, Blinds 50-100. Pre-flop A is under the gun and goes all-in for a total of 150 (an increase in the bet of 50). So we have a 100 blind bet and an all-in wager that increases the total by 50. Which is larger? The 100 is still the "largest bet or raise of the current round", so if B wants to re-raise he must raise at least 100 for a total of 250.

Example 3: NLHE, Blinds 100-200. On the turn A bets 300. B pushes out two 500 chips making the total 1000 (a 700 raise). It is 1000 to C to call. If C wants to raise, it must be “at least the largest bet or raise of the current round”, which is B’s raise of 700. So C’s minimum raise would be 700 for a total of 1700. Note his minimum raise is **not** 1000, B’s total bet.

Example 4-A: NLHE, Blinds 25-50. A raises 75 to 125 total. NOTICE that 125 total = 50 (bet) plus 75 (raise). The next raise on this street must be “at least the size of the largest previous bet or raise”, which is 75. B now raises the minimum (75) to 200 total. C then re-raises 300 for total of 500. We now have a bet of 50, two raises of 75 and a raise of 300 for total 500. If D wants to re-raise, “the raise must be at least the size of the largest previous bet or raise of the current betting round”, which is now 300. So D would have to raise at least 300 to a total of 800.

Example 4-B: Same as 4-A. It’s the same 500 to D, but there’s just been one raise of 450 by A to a total of 500 and B and C have both called. So there’s a blind bet of 50 and a raise of 450. “A raise must be at least the size of the largest previous bet or raise of the current betting round”, which is A’s raise of 450. So it’s 500 for D to call, and if D wants to re-raise he must raise at least 450 for a total of 950.

Rule 41: Re-opening the bet.

Example 1. Series of short all-in wagers that add up to a full raise and thus re-open betting:

NLHE, Blinds 50-100. Postflop, A opens betting for the 100 minimum.

B goes all in for a total of 125. C calls the 125,

D goes all in for 200 total and E calls 200.

Action returns to A who is facing a total raise of 100. Since 100 is a full raise, the betting is re-opened for A who can fold, call, or raise here. Note that neither B’s increment of 25 or D’s increment of 75 is by itself a full raise, but when added together they total a full raise and thus re-open the betting to “a player who is facing at least a full raise when the action returns”.

Example 1-A: At the end of Example 1 above, A smooth calls the 200 total (another 100 to him). The bet is now on C who is only facing a 75 increment. C called the 125 previously and is now facing 200 total (a 75 increment). Because 75 is not a full raise, the betting for C is not re-opened and C can either put out an additional 75 or fold, he cannot raise.

Example 1-B: At the end of Example 1 above, A raises the minimum (100), and makes it 300 total to C. C already has called 125 so it’s an additional 175 for C to call. 175 is more than a full raise. Since C already acted and is “now facing at least a full raise”, the betting is re-opened to C who can fold, call, or re-raise here.

Example 2. Short all-in, 2 scenarios.

NLHE, Blinds 2000-4000. Pre-flop A calls the BB and puts out 4000. B folds and C pushes all-in for 7500 total (an increment of 3500 above the 4000 BB). It’s folded around to the SB who also folds.

Example 2-A. It's 3500 more to the BB who has not yet acted on his option. The BB can fold, smooth call the 3500, or raise by at least 4000 for a total of 11,500. The BB smooth calls and it's 3500 more to A. A has already acted and is facing 3500 which is not a full raise. Therefore A can only fold or call the 3500, he cannot raise because it is not "at least a full bet when the action returns to him".

Example 2-B. The BB raises the minimum (4000), for a total of 11500. It is now 7500 to A and because 7500 is more than a full minimum raise, betting is now re-opened for A who can fold, call, or re-raise.

Rule 43: Multiple Chip Betting.

"When facing a bet, unless a raise is first declared, a multiple-chip bet is a call if there is not one chip that can be removed and still leave at least the call amount. If there are one or more chips that can be removed and still leave at least the call amount, the bet is governed by the 50% standard in Rule 41." Useful rule of thumb in practice: effectively, this means that if one of the smallest single chip(s) in the bet is removed and leaves less than the call amount, it is a call. If the smallest single chip is removed and the call amount or more remains, it is governed by the 50% standard in Rule 41.

Example 1: There is not one chip that can be removed and still leave the call amount.

1-A: Player A opens post flop for 1200, B silently puts out two 1000's. This is a call because neither chip can be removed and still leave at least 1200.

1-B: NLHE, blinds 250-500. Preflop the UTG raises 600 to total of 1100. The UTG+1 silently puts out one 500 chip and one 1000. This is a call because neither the 500 or the 1000 can be removed and still leave at least 1100.

Example 2: Same as 1-B above except the UTG+1 puts out one 1000 and five 100s silently. Four of the 100s could be removed and still leave the 1100 call amount. Therefore this would be subject to Rule 41. The minimum raise is 600. 50% of 600 is 300. Therefore if the UTG+1 puts out 1400 or more, he will be held to making a full raise to 1700 total. Since the UTG put out 1500 he must raise in this example.

Example 3: Same as 2 above except the UTG+1 puts out one 1000 and three 100s silently. Two of the 100s can be removed and still leave the 1100 call amount therefore this is subject to Rule 41. Since the player did not put out at least 50% of a minimum raise, this bet is ruled a call and 200 is returned to the player.
